

WHAT IT IS

Go Forth Sermons turns each Sunday's sermon into content your church can use for the rest of the week. It is built for churches of under 300 people that have no communications staff. Your team has nothing to edit and no software to learn.

It is not a tool you have to learn: it is a finished package, checked by a person, delivered one business day after you post.

Delivered within one business day after your sermon is posted.

For example, a sermon posted by 9 PM Central on Sunday is delivered by 5 PM Central on Monday. When Monday is a holiday, delivery moves to the next business day.

EACH WEEK, IN ONE ORGANIZED FOLDER

How it works

- 1 Preach as usual.** We pick up the sermon from YouTube, Facebook, your website, or a shared folder.
- 2 We prepare the week's content.**
- 3 You receive one folder within one business day.** Post it, print it, or forward it to your group leaders.

Your pastor's own words

- ✓ Only the pastor's own words, illustrations, and Scripture references. Nothing doctrinal is added.
- ✓ AI prepares first drafts; a person reviews every piece for accuracy, Scripture references, and tone.
- ✓ Clips contain sermon audio only and never include worship music.
- ✓ By default, we never touch your social media accounts: we deliver files, and you post them.
